

INSTANT Hedge™

Quality. Consistency. Instant Privacy.

Why wait years for a finished hedge that you could enjoy in one day?

About Us

InstantHedge is the only nursery in the USA exclusively growing pre-finished hedges, although it has been a popular concept in Europe for decades. Our patented technology enables us to grow and harvest thriving hedges year-round.

Our hedges are grown in Canby, Oregon and shipped throughout the United States.

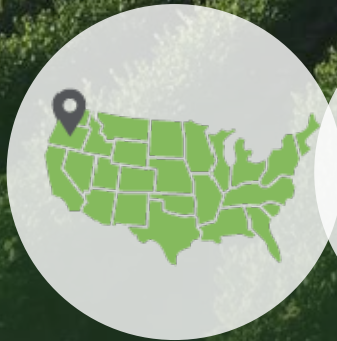

There is no other way to achieve the instant privacy and design you need for your landscape than by using a pre-finished, thriving InstantHedge.

Why Choose InstantHedge?

Quality

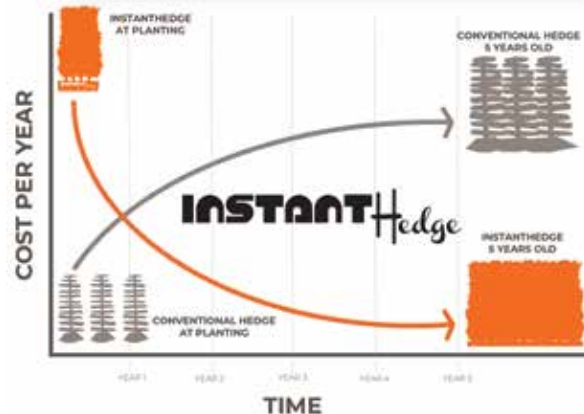

Our patented equipment allows us to cultivate our hedges for optimum quality. They are root pruned every year so that by the time they are harvested they have a beautifully healthy, fibrous root system. This means little to no transplant shock and planting success in any time of year.

Cost

Our hedges are a value-added product, and they are typically 5-7 years old by the time they are harvested. Careful cultivation by our crew results in hedges that require almost no work after planting and very simple maintenance in the coming years. Conventional hedges are much more labor-intensive after planting, and easily end up costing more over the long term despite the initial savings. When you understand our product, the cost is more than reasonable.

Instant Results

Conventional hedges take about 5 years to finish and mature. InstantHedge takes 1 day.

Arborvitae Hedges

American Arborvitae (Zone 3)
 Emerald Green Arborvitae (Zone 3)
 Green Giant Arborvitae (Zone 5)
 Little Simon Arborvitae (Zone 3)

Hedge Units

Easy to Calculate

3-4' and 5-6' hedges: Linear feet needed $\times 12 \div 40$ = units needed

18-24" hedges: Linear feet $\times 12 \div 32$ = units needed

Just contact us and we're happy to assist!

- Hedges are sold by the "hedge unit"
- One hedge unit equals a 40" long section of finished hedge containing 4 plants
- The MiniHedge is grown and shipped in a 32" long container and has 5 plants per hedge unit

Hedge Unit Dimensions

-Low borders, knot gardens
-Under 40 lbs each

-Medium borders, garden rooms
-Up to 250 lbs each

-Tall borders, privacy hedges
-Up to 250 lbs each

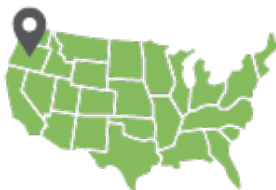

How We Ship

The hedges ship on standard pallets.
3-4' and 5-6' hedges ship 3 per pallet.
18-24" hedges ship 24 per pallet.

Delivery takes 2 weeks or less through one of our reliable carriers.
Residential delivery with lift-gate service is available (check with your distributor).

We ship all over the United States and parts of Canada from our farm in Oregon's fertile Willamette Valley.

Where We Sell

You can find our products in any of the following ways:

Distributors

We work with a network of excellent garden centers who stock samples of our hedges.

At some locations you can purchase on site, while others can special order hedges for your project. Some can even arrange to have us deliver directly to your home. For a list of distributors, visit instanthedge.com/partners

Landscapers

Landscape designers and architects can use our hedges in their designs.

Ask your landscaper to specify InstantHedge in their design for your project so they can make your privacy dreams come true. Your landscaper can then easily install your InstantHedge for you, so all you need to do is enjoy.

Buy Online

You can purchase your hedges online through Conifer Kingdom. They carry our full line of hedges and have convenient online checkout, bulk discounts, and free shipping to anywhere in the United States.

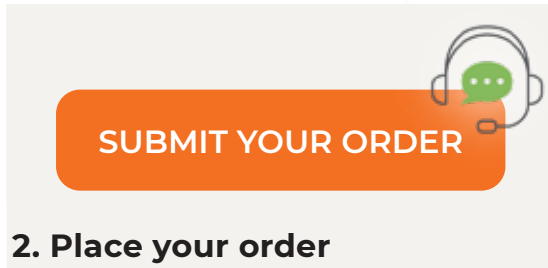

Check them out at coniferkingdom.com/hedges
